> RE: <u>Petition to Release January 6th, 2021 Capitol Video Footage to The Gateway</u> <u>Pundit, the Families of Every January 6th Defendant, and to the American People.</u>

Dear Speaker McCarthy:

In late February of this year the American People were informed by your staff and by reports from Fox News journalist, Tucker Carlson, that you had authorized the release of some 44,000 hours of January 6, 2021 Capitol video footage to Mr. Carlson. Because of the incredible historical importance of the January 6th protest ("J6"), and the subsequent governmental and media portrayal, ridiculous and demagogic "insurrection" narratives and record-breaking prosecutions,¹ it is imperative that you release this video footage to more media outlets and to the families of the J6 defendants.

Rightly or wrongly, millions of Americans, including the undersigned, believe that the federal government orchestrated large portions of the J6 debacle. Because of this, our trust in our federal government is at an all time low. To be clear: because of the perception of governmental misconduct, misrepresentations, and malice on J6 and subsequent thereto, we have lost faith in all three branches of the United States government.

We do not trust the law enforcement entities whose personnel entrapped, attacked, and in some cases murdered Capitol protesters. We do not trust the US Congress, which initiated a witch-hunt and choreographed dog-and-pony show to manipulate the public's perception of J6 and leverage it against conservatives and former President Donald Trump. We do not trust federal prosecutors who weaponized the justice system for political purpose, and who wrongfully

persecuted (and in some cases tortured) the vast majority of defendants and their families. And we do not trust the federal judiciary kangaroo courts which presided over these Kafkaesque prosecutions.

Why have these institutions lost our trust? Simple: because of the video footage that has managed to make its way into the public so far. This footage has laid bare the lies of scores of federal narratives about what actually occurred at J6. The obvious lies and/or discrepancies are far too numerous to list here, but we at The Gateway Pundit and at our sister site AmericanGulag.org have been documenting in great detail for two years. The public is rightfully angry not only because of the lies, but the absolute contempt all branches of the federal government have for the American People. It's obvious that all levels of the federal government believe they can subject the public to bald-faced lies without total impunity. As Lincoln once said, you "cannot fool the people: you may fool people for a time; you can fool a part of the people all the time; you can't fool all the people all the time."

As one example, now that you've granted access to Tucker Carlson, we even know that J6 "Shaman" Jacob Chansley and his entourage were led through the Capitol by police, a fact at complete odds with his portrayal by the US "Justice" Department as a violent, dangerous criminal. For another example, authorities repeatedly stated that Officer Brian Sicknick was killed by the J6 "insurrectionists," when in fact he died two days after January 6th from an unrelated medical issue.

I say the footage "managed to make its way into the public," because every level of government – with the exception of your kind, but insufficient offer to Tucker Carlson – has made every possible effort to conceal the J6 video footage from the American People. It's nothing short of a miracle that any footage has survived the federal embargo. This is entirely contrary to the government's duty of transparency. The federal government, supposedly servants of the American People, have the duty and responsibility not only to avoid impropriety, *but also the appearance of impropriety*.

The federal government has engaged in a broad and deep campaign to deceive the American people on this topic. All Americans – and especially the families of the J6 defendants, not to mention the defendants themselves – deserve to fully understand what happened at J6. Giving Tucker Carlson and Fox News access to the footage is a good first step. However it is terribly inadequate. This footage is voluminous, but also historical. It is historical evidence that belongs to the American People without alteration, obstruction or delay. Because there is so much footage, however, we ask you to provide it to more news outlets, including The Gateway Pundit, rather than simply siloing the footage at Fox News. If you grant The Gateway Pundit access to the footage, we promise to host the footage as quickly as possible, to allow the American People to fully access and investigate on their own.

You may not be aware, but The Gateway Pundit is a nationally renowned political news and opinion site viewed nearly 3 million times per day. As mentioned, The Gateway Pundit has extensively covered J6 issues for the past two years – including publishing investigations into the

Hon. Kevin McCarthy May 31, 2023 Page **2** of **5** effects the political persecutions have had on individual defendants and their families. Most of these men and women have been effectively railroaded and, in the process of trying to defend themselves, they and their families have been bankrupted. Not only does Uncle Sam tilt the playing field, but it is an adversary with unlimited resources. J6 defendants can't simply print more money, when the till is short. However, The Gateway Pundit has done its best to assist the defendants and their families. To date, The Gateway Pundit has helped raise roughly \$2 million for these families, thanks to the generosity of Gateway Pundit readers

Gateway Pundit does not simply request access to the J6 footage you recently released to Mr. Carlson: dozens of J6 prisoners and their families hereby petition you to release the footage to Gateway Pundit and the American People. Please see below for their names.

If you, and indeed the rest of the federal government, are serious about repairing the government's reputation for dishonesty, the first step is transparency. There can be no trust or faith without complete transparency. Giving Gateway Pundit and the American People access to this footage would be a crucial and necessary first step toward a national reconciliation. We respectfully petition you to do so. Thank you for your consideration.

Yours in Liberty,
